ABOUT ME

I am a recent Master of Computer Applications (MCA) graduate with a strong interest in front-end development. I am currently building my skills in HTML, CSS, JavaScript, and React to create responsive and user-friendly web applications. I have good communication skills in English and enjoy learning new technologies. I am eager to apply my knowledge, grow as a developer, and contribute effectively to a team.

EDUCATION

2024 - 2026

Master of Computer Application

Jamal Mohamed College (Affiliated to Bharadhidasan University)

2021 - 2024

Bachelor of Computer Science

H.H The Rajah's College (Affiliated to Bharathidasan University)

PROJECTS

ONLINE ROOM BOOKING SYSTEM

Built a full-stack web application using React (frontend), Node.js (backend), and MongoDB for efficient room booking and management. Implemented features like real-time availability, user-friendly UI, and secure data handling for seamless reservation experience.

NOTES WEB APPLICATION

Built a multi-user notes app using React with CRUD operations and localStorage persistence. Implemented login/signup and user-specific note management using React state. Designed dynamic UI with expandable notes, modals, and controlled inputs.

CERTIFICATIONS

Forge – Software Engineering Job Simulation (Commonwealth Bank)

Completed a virtual software engineering job simulation focused on both backend and frontend development.

Soft Skills Development Certification

Developed communication, teamwork, and professional behaviour skills for organized work environments.

SKILLS
